## **NOTICE OF WORKSHOP SESSION, BOARD ADOPTION HEARING, AND OPPORTUNITY FOR PUBLIC COMMENT**

### **PROPOSED WATER RECYCLING POLICY**

**NOTICE IS HEREBY GIVEN** that the State Water Resources Control Board (State Water Board) will hold a public workshop to receive public comments on a proposed statewide Water Recycling Policy as part of a State Water Board meeting to be held on October 2, 2007 in Los Angeles. A quorum of State Water Board members may be present at the workshop session. No regulatory actions will be taken at the October 2, 2007 workshop. The location and time of the workshop are provided below.

October 2, 2007 – 10:00 a.m.  
Metropolitan Water District of Southern California  
700 North Alameda Street  
Los Angeles, California 90012-2944

**NOTICE IS ALSO HEREBY GIVEN** that the State Water Board has scheduled a hearing on December 4, 2007 in Sacramento to consider adoption of the proposed statewide Water Recycling Policy and a related California Environmental Quality Act (CEQA) document. (The draft CEQA document will be released at a later date and a separate notice will be issued when the draft CEQA document becomes available for review.) A quorum of State Water Board members will be present at the hearing. The State Water Board will receive oral comments on the proposed statewide Water Recycling Policy and may adopt the proposed Water Recycling Policy at the December 4, 2007 hearing. The location and time of the hearing are provided below.

December 4, 2007 – 10:00 a.m.  
Cal/EPA Headquarters Building  
Sierra Hearing Room  
1001 I Street  
Sacramento, CA 95814

## **BACKGROUND**

Recycled water is a major source of water supply in California and a major component in California's plan for meeting the state's growing water demand. The California Water Plan estimates that recycled water usage can increase from half a million acre-feet per year in 2003 to two million acre-feet per year in 2030. The Recycled Water Task Force

issued a report in June 2003 that contained recommendations that California should implement to achieve this goal. Some of the recommendations concerned the need to consistently apply state statutes and regulations regarding water recycling and water quality. The purpose of a statewide policy would be to provide direction to the Regional Water Quality Control Boards (Regional Water Boards) on how to interpret state statutes, regulations, plans, and policies with respect to water recycling projects, thus ensuring consistent interpretation of the requirements among the Regional Water Boards.

On March 20, 2007, the State Water Board held a workshop on whether the State Water Board should develop a water recycling policy and, if so, what issues the policy should address. The comments received generally supported the development of a water recycling policy. The comment letters can be viewed at:  
[http://www.waterboards.ca.gov/water\\_recycling\\_policy/index.html](http://www.waterboards.ca.gov/water_recycling_policy/index.html).

The proposed Water Recycling Policy addresses requirements for implementation plans for salts, recycled water irrigation projects, groundwater recharge reuse projects, liability, and conflict resolution procedures. It does not address impoundments containing recycled water, incidental runoff of recycled water, or aquifer storage and recovery projects that do not use recycled water.

## **DOCUMENT AVAILABILITY**

The proposed Water Recycling Policy may be obtained via the Internet on the State Water Board Web site at:
